THE GREAT MOVEMENT FROM THE CHICKAHOMINY TO JAMES RIVER.—A correspondent of the Philadelphia *Press* writes from McClellan's headquarters at Turkey Bend July 5th, as follows:

Recurring to the events of the past few days, the most prolific imagination cannot realize a true view of the great retreat, and pen pictures avail very little in its description. The march was fully protected. Not a single valuable article fell into the enemy's hands. Thousands of dollars worth of property were destroyed because it could not be carried; but the rear guard kept behind the last wagon, not allowing a single team to fall into the enemy's possession. Food was burned, ammunition blown up, whisky and molasses barrels broached, wagons, with horses, dead by the wayside from sheer fatigue, were burned, or had every spoke and axle broken. Soldiers threw away their knapsacks, but attentive fatigue parties piled them in vast heaps, and their ashes mocked the rebels, whose utmost exertions were too feeble to secure them. Muskets lying in ditches were bent and broken. Not a single article of all thrown away by that grand army on its grand retreat, could be useful to the rebels. Fire and water, the knife and the ax, did their work and did it well.

Still the enemy pressed us, and through all the night the jaded army, with its baggage had to be urged on. A vast herd of cattle passed me early Monday morning, and, just after it, a drove of a thousand rebel prisoners. I started early, and again witnessed Sunday's fearful scenes. Wounded and sick limped along, many a one lying down to sleep his last sleep under the grateful shade of the roadside woods. The same confusion of wagons, of soldiers, of cannon, and all the paraphernalia of war, blocked the passage; and, in addition to the rebels thundering behind us, and the long, weary dusty way before, hunger and thirst began to stare us in the face. Thousands had thrown away their haversacks, containing all their food, and not a bite could they prepare. Not a stream or a spring could be found anywhere to quench the thirst of the poor soldiers. They lay on the ground drinking from ditches filled with mud and filth. Wells, dug with their hands, sometimes furnished a scant supply.

But it was not one-tenth enough for the army; horses died from thirst, and were left lying where they fell. Everywhere could be heard the cry for water, water, though above it sounded loudly the voices of the officers as they urged every one forward. Monday was far more terrible than Sunday. Hunger and thirst came to the aid of secession, in the infliction of deep and painful wounds upon the Union army.

At 1 o'clock on Monday I came in sight of the James river, away off in the distance, its muddy current swiftly coursing between its low banks. How many hailed with delight that glorious river which betokened the end of our weary, terrible [illegible]! The hill-top was lined with [illegible] who [illegible] their eyes with the sight of the [illegible] stream. The halt we made, however, [illegible] a very short one, and after a dusty [illegible] of four miles, we reached Turkey [illegible] on the river. Here I witnessed the most frantic glee on the part of the troops. Soldiers would rush down the hill side and rush madly into the stream in a perfect frenzy of delight. Many whose thirst had been most excruciating for hours before, standing neck deep in the water, drank to their heart's content. The horses, too, were relieved—their wants were cared for, and the hungry soldiers were the only ones left who were still in worse misery than the army generally.

No flag but the Old Flag—the Red, White and Blue,

TUESDAY MORNING, AUGUST 19, 1862.

True Union Doctrine—The Union Men of Baltimore

The Union men of Baltimore have formed themselves into an organization, and hold weekly meetings. At the meeting on the 28th ult., a series of resolutions were adopted, declaring—

1st. Unconditional adhesion to the Constitution and Government of the United States, is reaffirmed.

2d. That the National Government should continue the present war until the rebellion is entirely crushed.

3d. The recent attempt to revive a political organization under the auspices and leadership of rebel sympathizers, is unqualifiedly condemned.

4th. The Administration is sustained in its efforts to suppress the rebellion, and a vigorous policy is urged for the future.

The fourth resolution upon is the subject of emancipation, and we therefore give it in full:

Resolved, That we approve the wise and conservative policy proposed by the President in his message of the 6th March, 1862, and sanctioned by Congress, tendering pecuniary aid to such States as may choose to adopt a system of gradual emancipation; and that it is not only the *duty* of the loyal people of Maryland to meet the Government in this endeavor to relieve them, in the only practical way, from the evils which armed insurrection has brought upon the land, thus sustaining the Government as well against the treason of secession as against the radical and violent projects of fanatical abolitionists, but that it is likewise for the *interest* of all the people of this State, more especially of the slave-owners, promptly to accept the aid thus tendered, and remove from our midst an institution which has ceased to be profitable, and is now injurious to our political and material interests, and dangerous to our peace and safety, by inaugurating such a plan of emancipation and colonization as will be equitable to those interested, and as will tend to secure the industry of the State to the white labor of the State.

The Union men of Baltimore—slave-holders, many of them—thus publicly express their opinion that the rebellion should be crushed out; that the attempt to get up a political organization under the *leadership of the sympathizers in rebellion*, should be condemned; and that it is the duty and interest of the people of Maryland to accept the propositions of Government for the emancipation of the slaves, and thus place Maryland on the list of free States.

The reader will mark the difference of the policy of the Union men in Maryland, and that of the sympathizers with rebellion everywhere. The Maryland Union men are for crushing out treason by using the whole power of the Nation; they are for putting down the sympathizers of rebellion, who, by getting up a political organization in the Union States, seek to aid, indirectly, the rebels in war against our Government; and they are in favor of putting an end to the evil which has caused this rebellion. And now, how is it with the party who lately sought to obtain the political control of Oregon and Washington Territory, and whose success would have been hailed with acclamations by the rebels in arms? They desired the war to be stopped by concessions to traitors; they aimed to get up a party to be led by the sympathizers with treason; they have never offered a word of approbation of the measure which, if carried into effect, would remove all cause of difficulty in the Government for all time to come.

The UNION PEOPLE of Oregon and Washington Territory—we mean those with whom Union, under all circumstances, is an abiding principle of the heart—should keep steadfastly in view the objects of the Government, and sustain the Government in carrying them out, as the great SHEET ANCHOR OF THEIR HOPE. The Union people of the State and Territory ought never to forget the public expression of sympathy with traitors by the men who have sought, and probably will continue still to seek, to rule them. Men who have publicly rejoiced at the disasters of the country, should never hold office under our Government. They are not of us. They would be against us, even with arms in their hands, if there was a promise of success. We have these men in Oregon and Washington Territory. The late elections brought out the characters of many of them. Their declarations of hostility to the Government—their sympathy with treason—are upon record. The declarations upon oaths of respectable men fix a stigma upon them that the waters of Lethe cannot wash out. Sympathy with those who are endeavoring to break down the best Government on earth—a Government based on the principles of human progression and human freedom—is a most damnable crime against humanity. Its success—its success in breaking down FREE GOVERNMENT and building up a Government BASED ON HUMAN SLAVERY—would raise a wail over all the civilized world which would reach and be continued into the interminable future.

The Star Spangled Banner which now waves over the Capitol of Tennessee, was for seven months sewed inside a bedquilt by a Union man of Nashville, who slept under it every night.

The Roman Catholic Bishop of Virginia has issued a decree against O. A. Brownson's *Review*, declaring that it is no reliable exponent of Catholic doctrines and principles.

From the Upper Columbia and the Mines.

We take the following mining and other items from the Walla Walla *Statesman* of August 16th:

FROM BURNT RIVER.—Late accounts from Burnt river confirm the reports of gold discoveries on that stream, and it is now reported that new diggings, richer than any before found, have been struck near the head of the river. The same difficulties are encountered on this river as on some of the localities on Powder river in obtaining sufficient water to work the mines to advantage. This impediment, however, can be overcome by ditching.

COLVILLE GOLD.—Mr. Chas. Allen, of the firm of Green, Heath & Allen, arrived in this city on Tuesday morning from Colville, bringing with him thirty pounds of gold dust. Mr. Allen informs us that more gold is being taken out in the vicinity of Colville this season than ever before since the discovery of the mines.

RICH QUARTZ LODE NEAR AUBURN.—On Sunday evening last a quartz lode was discovered by Mr. Comstock, on French Gulch, near Auburn, which yields one hundred dollars to the pan. Four hundred and ten dollars were taken from the lode on Monday in about three hours' work. A specimen of the quartz, weighing $2 25, was sent over to this city for exhibition. It is somewhat decomposed—more than two-thirds gold, and is evidence that the lode must be very rich.

A HUNDRED DOLLAR LUMP.—A piece of gold weighing one hundred dollars was taken out of Chase & Co.'s claim, on Wilson's gulch, Powder river, last week.

ARRIVAL OF LIEUT. MULLAN.—Lieut. Mullan and party, some fifty men and eleven wagons, arrived at the Fort on Wednesday. A number of Fort Benton emigrants accompanied the train.

GOLD EXCITEMENT IN THE UPPER COUNTRY.—We learn by the last express from Florence that a general excitement prevails at that place on the subject of the new gold mines—Warren's Discovery—and that a general rush is being made for the mines.

GRANITE CREEK GOLD.—Mr. R. Jacobs has shown us this week a few ounces of Granite Creek gold. It resembles the Powder river gold, excepting that it is not quite so coarse. It is thought it will assay as high as $17 per ounce.

The following items are from the *Golden Age* of August 15th:

A WOMAN SHOT.—About 6 o'clock Wednesday evening, the report spread through town that a woman known as Mrs. Herring, who lived with Judge Smith and his wife, on A street, near First, had committed suicide by shooting herself through the breast with a pistol. The particulars of the case, however, as they were subsequently ascertained, led to the suspicion that Smith was the author of the deed, and accordingly constable Alexander, placed him at once under arrest.

FOUND DEAD.—Geo. Wash. Bright formerly a miner in the Oro Fino District, was found dead on Tuesday morning in C street. No marks of violence could be found.

A correspondent of the *Mountaineer* writes from Auburn, Powder river, August 9th, as follows:

Mr. Kirkpatrick started this morning to meet the emigrants, who are reported to be very badly off, and some of them starving.

Every claim in Powder river valley, and nearly all in Grand Ronde Valley, are taken up, and in less than a year we shall produce a portion of our supplies.

A saw mill, worked by water, will be in operation on Willow Creek in a few days, and the proprietor says he will supply lumber at 8 cents a foot.

Flour is worth $10 per 100 lbs; Beef 10 to 15 cts; Mutton 12 to 16 cts.

ROBBERY.—A man, name unknown, on his way to the mines, last week, was approached by three men at the mouth of Willow Creek, who, by a ruse, got possession of his revolver, and then robbed him of $90 in money, three animals, and a miner's outfit. The robbers left the man nothing but the clothes he stood in. After the robbery, the three scoundrels crossed to the north side of the Columbia river, and have not been heard from since.—*Mountaineer*.

SAN FRANCISCO, August 11.

Three thousand three hundred and forty dollars was collected at St. Mary's Cathedral yesterday for the starving peasants of Ireland.

A negro fell over a precipice, corner of Battery and Green streets last night, nearly one hundred feet, and his injuries are such that he cannot recover.

John Williams, seaman, aged 17, fell overboard from the ship *Twilight*, while entering the harbor, and was drowned.

Edward Reopke, a missing passenger by the *Golden Gate*, insured his life in this city the morning of his departure for three thousand dollars.

The steamer *Artic*, had everything necessary to repel any interference by Mexicans in the recovery of the treasure.

The *Brother Jonathan* has arrived from the South with 50 passengers. Arrivals at Los Angeles confirm the richness of the Colorado mines. The heat is so great that it is impossible for whites to work. Mexicans and Indians are taking out much gold. The Indians are peaceable and friendly. Considerable gold is arriving at Los Angeles, and the country is now believed to be very rich in gold and silver bearing quartz.

The steamer *Golden Age* sailed to-day at 3 o'clock, with 590 passengers and $1,086,163 97 in treasure.

Considerable doing in wheat and barley; the former quotable at $1 65 a extreme choice $1 70; latter, old, $1 40. Oats, owing to scarcity, have advanced to $1 75.

USELESSNESS OF WEALTH.—Persons who were on the *Golden Gate* while she was burning describe the usual incidents that occur on the occasion of such calamities to illustrate the worthlessness of wealth, and the sudden contempt for it that a vision of death brings. One account says:

"There was more money round the decks than would have loaded down four men. A man named Brady threw down $20 ounces tied up in an old gray shirt, saying: 'Boys, if I go to the bottom, no one can say that gold sunk me.' He was saved. A other passenger, Moran, who had on a buckskin vest filled with coin, thrust his hands into his pockets and scattered it around, calling out with a sort of reckless pleasantry: 'Here's money! here's money! who wants it?' But a more precious thing than gold occupied the attention of the passengers just then, and he was unheeded."

The Missouri *Republican* says: "No wonder we occasionally hear of the 'patriotism' of planters in destroying their cotton. That sort of patriotism is cheap, if we consider the small option between burning cotton or taking confederate bonds for it."

E. J. Sweeter, of Massachusetts, who comes home sick and wounded, states that a Spanish slave-driver, at the battle of West Point, forced 300 slaves to take part in the fight, and when the battle was over, he saw numbers of blacks armed and equipped, bearing Minie rifles.

LATER FROM THE EAST.

Dates to August 13th.

Battle at Culpepper—The Bloodiest Battle of the War—Federal Victory—The Rebel Ram Manassas destroyed.

SACRAMENTO, via YREKA, Aug. 14.

WASHINGTON, Aug. 12.—The battle of Culpepper was the most desperate battle of the war, involving about even losses on both sides—the rebels losing more officers than the Federals. Generals Winder and Trimball are killed; we lost none above the rank of Colonel. Pope telegraphs that the rebels had not renewed the engagement yesterday or to day. They are two miles from the field which we occupy, while head quarters are still at Culpepper.

Both sides have been reinforced, and a renewal of the engagement cannot be far distant. Loss in the Ohio and Indiana regiments very large; they being in Banks' division which did most of the fighting, resisting Ewell's and Jackson's commands.

CAIRO, Aug. 10th.—It is not true as telegraphed that Farragut asked truce in passing the Vicksburg batteries. He went past, firing from every vessel.

NEW YORK, Aug. 11th.—Steamer *Connecticut* arrived from New Orleans July 31st.—Among the passengers is Reverdy Johnson.

Farragut's fleet arrived at New Orleans on the 29th.

NEW YORK, August 12th.—The *World* has the following from Culpepper: "Firing was renewed at daylight on our side, but was not responded to by the rebels. Sigel had advanced and was inspecting the enemy's position. Nothing important had occurred."

WASHINGTON, August 12th.—Dispatches from Pope state that the rebels retreated and his cavalry and artillery are in pursuit across the Rapidan. The rebel army, fearing their retreat would be cut off, have gone back towards Court House.

They made a stand at Orange to prevent our advancing on Gordonsville. Jackson's retreat down the railroad is considered a necessity—he had eventually become aware of the trap into which he was being beguiled.

FREDERICKSBURG, August 12.—An expedition from Burnside's made a descent on the Virginia Central Railroad, at Fredericksville, station, and tore up the rails for a quarter of a mile, and blew up the road bed with powder. They also destroyed 40,000 bushels of grain, a lot of whisky and other army stores. A detachment was sent to Bunker Station to blow up the track, and switch, which they did—still further on, the track was barricaded and rendered useless by burning.

CULPEPPER, August 13.—The flight of Jackson shows he fears to meet our troops on Saturday. He engaged with his whole force, numbering 30,000.

A portion of the corps of Banks behaved nobly, holding the enemy in check with the aid of one division of McDowell's and Sigel's corps, which arrived during the day and drove the enemy from the field of battle. Jackson's loss can scarcely be less than 1,500; our number is less. The battle was the bloodiest of the war.

On Sunday Jackson remained idle, troops on both sides being exhausted. Monday, Jackson sent a flag of truce, asking permission to bury his dead, a large portion of which was still on the field.

Yesterday morning the whole army was found to be gone. Cavalry and artillery pursued his hasty retreat towards Gordonsville, and compelled him to burn bridges to save himself. Jackson's servant has just come into McDowell's headquarters, and reports his master admits a loss of 2,000 in Saturday's engagement.

KANSAS CITY, Aug. 13.—The receipt of the news of the capture of Independence City threw this city into great excitement. Militia was called out. A call for reinforcements was made on Fort Leavenworth. A force left this morning in pursuit of the enemy.

LEXINGTON, Mo., Aug. 12.—Independence, Mo., was attacked by 1,500 rebels under Hughes and Quantrell; after four hours' severe fighting the Federals surrendered—20 of our men killed.

WASHINGTON, Aug. 10.—The Pittsburg *Express* of the 9th says a dispatch from Van Dorn to Secretary Mallory states that the ram *Arkansas* had been destroyed. She left Vicksburg Monday to co-operate in an attack on Baton Rouge; after the passage of Bayou Sara her machinery became disabled, and while her crew were attempting to repair it, several of the enemy's gunboats attacked her, and after a gallant response she was abandoned and blown up. Her officers and crew escaped.

NASHVILLE, 12th.—Dispatches from Morgan at Cumberland Gap say the Decory brigade and 15th Kentucky regiment on the 5th and 6th inst., had been engaged with Stevens' division, in force, the rebels outnumbering them 4 to 1. The rebels lost 225 killed and wounded; our loss was 3 killed and 15 wounded and 5 prisoners. Two companies of the 16th Ohio were surrounded by two regiments of rebels, but cut their way through. They captured a large lot of forage, tobacco, horses and mules.

WASHINGTON, 13th.—A dispatch from Culpepper today states all quiet.

The Daily Oregonian.

CITY.

The MORNING OREGONIAN has a larger SUBSCRIPTION LIST than any other Daily published in this City.

THE DAILY OREGONIAN may be had at the Franklin Book Store, and at Charles Barrett's, [illegible]

A PITIABLE CASE.—We heard late last evening that an old man, a German by birth, was seen laying on the river bank a short distance above Knott's Wharf, who is sick with the small pox. He is reported to be in a helpless condition, and certainly needs assistance from some charitable source. We hope to hear that he has been suitably provided for.

P. S.—We have since learned that the unfortunate man has been taken care of and is provided with comfortable and pleasant quarters. There was considerable excitement manifested by the citizens in that locality relative to this case, and we suppose unnecessarily so, as the friends of the man and our City Recorder, (acting as Mayor,) were doing all that could be done to procure a place for him, and as soon as a proper place could be obtained he was immediately removed.

FROM THE CASCADES.—The *Hunt* arrived at a late hour last evening from the Cascades, bringing down about sixty passengers and $100,000 in dust, $50,000 per Wells, Fargo & Co., and an equal amount in the hands of passengers. We are indebted to Wells, Fargo & Co. for late copies of the *Mountaineer*, [illegible] and *Golden Age*. The most important items taken from these papers will be found under the appropriate headings.

MORE TROOPS.—The *Wilson G. Hunt* took down to Vancouver last evening three companies of California Volunteers from Walla Walla, en route to San Francisco. These constitute the last companies, we believe, belonging to that regiment which were sent up here last fall. The Oregon and Washington Volunteers occupy the posts vacated by the California troops.

CITY HOSPITAL.—The case of small pox which has created such an excitement in the upper part of our city, yesterday, demonstrates the necessity of a City Hospital for the proper care and treatment of such unfortunate cases, which are not now provided for. Many persons cast blame upon Recorder McCoy because he did not immediately make suitable provisions for this case, when they never once take into consideration that no place has been provided by the city. The City Council should see to this.

A HAND.—We have noticed a tart communication from a gentleman (?) who signs his name as "Charles R. Hand," published in Waverley's *Advertiser*, which we will take the trouble to handle more at length hereafter.

PROSPECTING TOUR.—We notice that Mr. Joseph L. Allison has dropped the editorial quill and suddenly left for the mines, probably for the purpose of trying his hand with the [illegible]. We hope he may be more successful [illegible] actively engaged in a more congenial [illegible] than heretofore.

SAILED.—The bark *Almatia* and schooner *F. [illegible] Madison* left this city yesterday [illegible] in tow of the *Jennie Clark*, the *Almatia* for San Francisco, and the *W. L. Richardson* for Victoria, with a large amount of flour, [illegible], &c.

RECORDER'S COURT.—William Jack—arrested for drunken and disorderly conduct; fined $5 and costs, and in default of payment, committed to city jail for two days.

FUNERAL.—The funeral of Mr. J. D. Cremen was largely attended by our citizens yesterday afternoon from the Catholic Chapel, to the Cemetery across the river. The Hibernian Society and a large delegation from the several Fire Companies committed their brother and friend to his last resting place. The procession was quite imposing.

ARRIVED.—The Bark *Industry*, Capt. Paul Corno, arrived last evening from San Francisco, having left that city on the 24 inst. She had a very fair voyage up—with light winds and calms. The following is her manifest:

J. B. B., 8; D. Simon, 100; Bunnell Bro., 80; Wall Bros., 25; Richards & McCraken, [illegible]; J. [illegible], 20; R. J. Ladd, 893; A. C. & Co., 605; W. T., 124; H. L. 58; G. B., [illegible] R. The attention of the community is respectfully solicited to the New Goods arrived by the last [illegible] embracing a full line of Ladies' Silk Mantillas, French Bonnets, Florals, new style Hats, Chalies, Poplins, and [illegible], together with a full assortment of Cloth, New style thin Cashmere suits, Fancy [illegible], Broadway styles of [illegible] Suits, and the very latest Fashion of Parisian and New York Fancy Summer [illegible] Braid and Light [illegible] Hats. All the articles are now ready for sale, and can be seen at Harker's New Building, on First street, in the rear of Commercial Wharf.

Coughs.—The sudden changes of our climate are [illegible] of PULMONARY, BRONCHIAL, and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily and certainly when taken in the early stages of the disease, recourse should at once be had to "*Brown's Bronchial Troches*," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. See advertisement.

FAMILY
SEWING MACHINES
ARE UNEQUALLED BY ANY FOR
BEAUTY AND SIMPLICITY OF CONSTRUCTION
—AND—
Efficiency in Working.

A GOOD SEWING MACHINE

SHOULD BE WELL MADE, simple in its construction, and easily kept in order; should make a strong lock-stitch, alike on both sides of the material, and should sew any and all materials that can be sewed.

It should be able to use cotton, thread, or silk directly from the spool, and to sew from coarse to fine, and from thick to thin, with rapidity, and without changing the tension. It should also be able to make the tension greater or less, on both the under and upper threads, and with uniformity, and should have a *straight* needle, curved ones being liable to break.

The needle should have perpendicular motion—this is absolutely necessary for heavy work.

It should be able to bind with a binder, hem with a hemmer; should stitch, fell, run and gather; and should be always ready to work.

It should be capable of using the same size thread on both sides of the work, and of using different colored thread or silk, above or below, to correspond with any two colors of cloth to be united.

It should be able to make a long or short stitch, and to fasten off the seam, and commence sewing tightly at the first stitch, and to run easily, and make but little noise.

It should have a wheel-feed; no others are in constant contact with the work.

It should not be liable to get out of order; neither should it require a screw-driver or wrench to set the needle.

It should not be liable to oil the operator's dress.

It should not form a ridge on the under side of a ravel.

From the Oregon Farmer.

Butter.

There is no branch of farming industry that would pay as well in Oregon as butter making, if it was only thoroughly followed. Good butter has always commanded a good price in our own market as well as that of California. In fact, San Francisco is one of the best butter markets in the world.—Thousands of packages of butter arrive there monthly from New York, *via* the Isthmus, and command a good, remunerative price. This butter, after having been subjected to the severe ordeal of a passage of thousands of miles by sea, and beneath a tropical sun in crossing the Isthmus, commands a price which would be highly remunerative to our farmers. But we could get more. If our butter was put up in as good condition as that which is shipped from the east, it would command a much better price on account of its reaching market earlier and in a much sweeter condition. Now what can be the reason that our farmers do not avail themselves of this great resource? They have but to put forth their efforts and they can always find a ready and an ample market for all that they can furnish. There is, we believe, no better butter making country than the Willamette Valley to be found. Then why is it that our labor is not directed in that channel. There is, as we remarked at first, no business that will yield better returns than this.

But in order to compete with eastern dairymen in the California market, even with the ocean and the Isthmus to contend with, we must very materially improve the quality of our butter. And to effect this, there must be some general and radical changes made. Butter making must be reduced to a system, and the greatest attention must be paid to the breed of cows, and to the food that they eat, as well as to the preparation of the butter. If we continue to let our cows feed upon the wild grasses and weeds, and now and then suffer them to be half starved, and then poorly prepare our butter, we might as well sit down and fold our hands at once, for by so doing, Oregon butter will be below par in the San Francisco market, as it has been for a long time past. But this policy must not be longer pursued. It is fatal, suicidal. We must inaugurate in this respect a radical reform. Every one is aware that butter is the most sensitive article of food. If the cow feeds on clover, the butter has a clover taste; if she feeds on carrots, the butter partakes of their peculiar flavor; if she is compelled to feed on weeds, we find often the butter possessing a bitter and repugnant taste; and if the butter is placed in fir tubs or firkins, it forthwith catches the taste and odor of the wood. Hence, in butter making in this State, there is the greatest necessity of a thorough and entire change. Farmers must take hold of it and make it a business. They must sow their fields of clover and timothy for pasture and meadow lands, they must not allow their cows to feed upon any other than tame and sweet grasses and roots, they must prepare to keep them well fed not only in winter but in dry summer months, they must pay more attention to the preparation of their butter, and then they must secure oak instead of fir firkins for packing, and when this is done we may begin to hope that we can fully compete with Eastern dairymen—and not till then. And this must be done—and the sooner it is done the better for us all. Last spring we had butter imported into this State that was made in the East the season before, which possessed a much more agreeable flavor, and was nearly if not quite as sweet as that directly from some of our dairies. This need not be so. If the same care and attention is paid to the dairy business in this State that is paid to it in New York, we can directly furnish as good an article of butter as can be produced. Let us feed our cows upon tame grasses; let them constantly have good food, water and shelter, and let us pay the necessary attention to the milk then furnished, and we cannot fail of having a good article and commanding a good price.

"The New England Courant."—Mr. Tappan, Artist, of this city, has favored us with a copy of the *New England Courant*, "printed and sold by Benjamin Franklin, in Queen street, where advertisements are taken in." The paper is dated "From Monday, February 4 to Monday February 11, 1723," and has quite an "ancient" look, being printed on what would now be called a fair sample of wrapping paper, with types to correspond. It was published by a Society. The Editor, in his salutatory, after refusing to give his name, says:

> "The Society had deſigned to preſent the Publick with his Effigies, but that the Limner, to whom he was preſented for a Draught of his Countenance, deſcryed (and this he is ready to offer upon Oath) Nineteen Features in his Face, more than ever he beheld in any Humane Viſage before; which ſo raiſed the Price of his Picture, that our Maſter himſelf forbid the Extravagance of coming up to it. And then beſides, the Limner objected a Schim in his face, which ſplits it from his Forehead in a ſtrait Line down to his Chin, in ſuch ſort, that Mr. Painter proteſts it is a double Face, and he'll have *Four Pounds* for the Portraiture. However, tho' this double Face has ſpoilt us of a pretty Picture, yet we all rejoiced to ſee old *Janus* in our Company.

From the old *Janus*, here mentioned, a large number have increased—sufficient to supply all the political papers of the country.

The importance of date is shown in a divorce case now on the docket in Chicago.—Parties married in November last. Baby in January following. Husband no objection to baby, but don't like the date of arrival. Suspects something wrong about it, and sues for divorce. Moral—though procrastination is a vice, being ahead of time is sometimes a sin. Be careful about dates.

A Short Chapter.—DeQuincey mentions a chapter in Von Troil's Works on Iceland, which is entitled "Concerning the Snakes in Iceland." The entire chapter consists of these six words: "There are no snakes in Iceland."

Horace Mann, on being asked if he believed in the fall of Adam, replied, "Yes, and not only in the fall of Adam, but in a perfect succession of cataracts from Adam all the way down."

The August circular of the California Wool Grower's Association puts the receipts of wool in San Francisco for the month of July, at 2,768 bales; for the season, at 18,685 bales. Fair American wool is quoted at 19 to 20 cents; good Merino crosses at 21 to 22 cents, with small supply.

New York is troubled with worms. The inch worm, or scientific Anisopteryx, is there in millions. It hangs pendant from all the trees, crawls along the branches, and drops upon the shoulders of the passers by, without regard to sex.

D., late in the Hungarian Revolutionary War; Chief Physician to the 20th Regiment of Honveds; Chief Surgeon to the Military Hospital of Pesth, Hungary; the late Lecturer on Diseases of the Urinary Organs and Diseases of Women and Children, and Honorary Member of the Philadelphia College of Medicine.

Particular attention paid to the treatment of diseases peculiar to Women and Children.

Communications strictly confidential. Permanent cure guaranteed, or no pay. Consultations, by letter or otherwise, FREE.

Address, DR. L. J. CZAPKAY, San Francisco.

Of all diseases, the first great cause
Springs from neglect of Nature's laws.

To the Afflicted:

Suffer not when a cure is guaranteed in all stages of secret diseases—Self-Abuse, Nervous Debility, Syphilis in all its stages, Strictures, Gleet, Gravel, Diabetes, diseases of the Kidneys and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Ankles, diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Body or Limbs, Cancers, Dropsy, Epileptic Fits, St. Vitus Dance, and all diseases arising from a derangement of the sexual organs—such as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness, Dimness of Vision, with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Disease, Eruptions upon the face, Pains in the Back and Head, Female Irregularities—and all improper discharges of both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians, and resisted all their means of cure. The medicines prescribed are pleasant, without odor, entirely vegetable, causing no sickness and free from mercury or balsam. During fifteen years of practice in Europe, the Atlantic States and California, I have rescued from the jaws of death many thousands, who, in the last stages of the above mentioned diseases, had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a speedy and permanent cure. Private diseases are the greatest enemies to health, as they are the first cause of consumption, scrofula, and many other diseases, and should be a terror to the human family. A permanent cure is scarcely ever effected—a majority of cases falling into the hands of incompetent persons, who not only fail to cure the disease, but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption. But should the disease and the treatment not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in scrofula, tetter, ulcers, eruptions and other affections of the skin, eyes, throat and lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

Self-abuse is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering, down to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of self-abuse, that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices, my patients can be restored to robust, vigorous health.

Irregularities and all diseases of males and females, treated on principles established by fifteen years of practice and sanctioned by thousands of the most remarkable cures. Medicines, with full directions, sent to any part of the State, Oregon and Washington Territory, by patients communicating their symptoms by letter.

All business correspondence strictly confidential. Address DR. L. J. CZAPKAY, Medical Institute, Sacramento street, below Montgomery, opposite Pacific Mail Steamship Co.'s Office, San Francisco.

Remarkable Instance of Medical Relief

Below we publish the certificates of three persons rescued from the jaws of disease, who having recovered their former health, and impelled by gratitude, make known their case and remedial agent, and their statement is duly authenticated by a Notary Public. The sequel most earnestly commend their publicity, and we commend the perusal to the attention of all afflicted.

MARYSVILLE, June 3d, 1862.

Dr. L. J. Czapkay, San Francisco—Sir:—I have tried the last of your medicine and do not think I shall need any more, as I feel very well, except that I have not entirely got my strength yet, but soon will with the appetite I have. It is just three weeks, you may recollect, since I called at your institute, with my application as I thought to you entirely and never thought you would be able to cure me perfectly, but thought you might be able to do something to ease the pain in my back and head, and strengthen my nerves so that I would not get excited and tremble at everything. Now that you know what I expected, you may judge of my satisfaction at my complete recovery from those symptoms, and the removal of those sores and blotches from my skin and the ulcers in my throat, and the entire stoppage of those emissions which you said were principally the cause of my sickness. I can hardly tell you which is the greatest joy or my surprise, for except not having fully got my strength, I feel as well as any man can feel.

Enclosed I send you twenty dollars over your charge, and think myself cheaply cured. If you think anybody will be benefited, you may put this letter in the newspapers. Respectfully yours, THOMAS HAYDEN.

Thankfulness is the incentive to gratitude.
